### ENABLE MICROINVESTING

Microinvesting enables to send automatically a small sum of money to one's designated Growth Account with every debit card payment. The amount of microinvestment is the difference between the initial debit card payment and the rounded up value of the initial debit card payment. All debit card payments are included to the calculation of the microinvestment sum that is, in turn, transferred once a day to one's Growth Account as aggregated payment. By enabling microinvesting Client authorizes Bank to conduct transfers to Growth Account.

### APPLY 10% LIMIT

The amount of microinvestment is the difference between the initial debit card payment and the rounded up value of the initial debit card payment, the maximum amount is limited to 10% of the initial debit card payment.
