### Fund Manager's Comment

With the end of the Ramadan the markets have regained and showed during the second half of September very positive signs. Strongest gains were seen in the banking sector with a number of upgrades from International investment banks. Our investments in this sector in both Qatar and UAE showed robust upward trend with Doha Bank up app. 15%, Commercial Bank of Qatar up almost 13%. This sector was followed by the real estate sector which gained almost 10%. The banks in the region are in comparison with International peers in very healthy condition – the balance sheets are strong, NPL ratios are low and capital adequacy ratios are high.

The best performer in our portfolio this month was Aramex PJSC (air express and logistics) which gained ca 28% in September.

The UAE stock markets have in September been upgraded by FTSE to „emerging market“-status.
